An act to add Section 11011.23 to the Government Code, relating to
state property.

LEGISLATIVE COUNSEL'S DIGEST

SB 1758, as amended, Battin. State property: inventory.

Existing law requires the Department of General Services to maintain and update annually a complete and accurate statewide inventory of all real property held by the state and to categorize that inventory by agency and geographical location. This inventory is required to include specified information furnished by state agencies and the University of California.

This bill would require state agencies *and the University of California* to report this real property inventory and, in addition, each item of real ~~or personal~~ property in its possession or control that is valued at ~~\$100~~ \$5,000 or more to the Department of General Services,

as prescribed by the department, by March 1, 2005. It would also require state agencies *and the University of California* to report any subsequent purchases of real property ~~or personal property~~ in the amount of \$5,000 or more to the department. The bill also would require the department to maintain and update the real property inventory ~~and all personal property~~ in a central database, *as specified*.

The bill would exempt specified property from these requirements and would authorize the department to exclude any property from the database if inclusion is not in the interest of the security of the state or federal government or the public.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: no.

The people of the State of California do enact as follows:

- 1 SECTION 1. Section 11011.23 is added to the Government
